## Why We Are Here

Agriculture Education/FFA and the 4-H Youth Development Programs in Washington State exist to promote the maximum, personal development of participants. To achieve this and avoid program duplication, guiding principles must be understood and used by all professional leaders. We recommend that the following Principles be used in carrying out the two programs in Washington State's 30 counties.

- Agriculture Education teachers should encourage students to enroll and re-enroll in the 4-H program.
- County Extension Agents and Adult Volunteer Leaders should encourage members to enroll in Agriculture Education classes available in local secondary schools and to become members of the Washington FFA Association.
- A member may participate in all judging or bowl division activities in FFA and 4-H unless contests are held simultaneously and then the member must choose one.
- Members simultaneously enrolled in 4-H and FFA must have separate projects or animals for each program during the same calendar year. The program year is October 1 to September 30. THE GOAL OF BOTH ORGANIZATIONS IS YOUTH
