JOB DESCRIPTION

Career & Technical Education Teacher

Agriculture, Horticulture, Floriculture

Skills and Qualifications:

- Washington State Teacher's Certificate with endorsement for Agriculture Education, appropriate for high school, and/or
- Washington State Career and Technical Education Certification in Agriculture Science endorsement (or ability to obtain).
- Current first aid/CPR card required.
- Demonstrated ability to express self clearly in speaking and writing.
- Evidence of a thorough knowledge of skills needed to build and maintain a successful agriculture science program.
- Evidence of training or experience using technology and real world applications to enhance teaching and learning.
- Demonstrated ability to align and deliver agriculture curriculum with the state standards for science.
- A team player who works cooperatively within a department context and organization.
- Demonstrated success supervising students' leadership organization (FFA).
- Ability to motivate and instruct students of all ability levels with emphasis on providing for their individual learning styles (basic levels and extensions beyond basics).
- Demonstrated success in developing community partnerships that support and enhance the curricular program.
- Demonstrated success in maintaining a positive, productive learning climate within the classroom as well as with parents and colleagues.
- Punctual and consistent attendance.

Major Tasks and Responsibilities:

- Teach agriculture science including agriculture, horticulture, and floral design.
- Attend all agriculture education advisory committee meetings and work to establish community partnerships that benefit the program.
- Teach, assess and model lab safety.
- Maintain safe, orderly and clean lab facilities/equipment.
- Prepare, monitor and maintain program budget.
- Provide leadership and guidance to the FFA youth leadership component of the program.

- Collaborate with instructional staff, other school personnel, parents and a variety of community resources for the purpose of improving the overall quality of student outcomes, achieving established classroom objectives in support of the school improvement plan.
- Participate in the curriculum development process with an emphasis on integrated curriculum and alignment of course competencies with the standards.
- Work with post-secondary institutions to develop/implement articulation agreements.
- Incorporate new and emerging technology into the instructional process.
- Become involved with business and community partnerships, including summer internships.
- Be a "team" player by establishing and maintaining cooperative professional relationships with others.
- Work with science staff to develop an integrated agriculture science program.
- Establish and maintain open lines of communication with students, parents, and colleagues.
- Be innovative and committed to the challenge of change in education.
- Participate in ongoing professional development to maintain a current working knowledge of the information technology industry.
- Be committed to success for all children.
- Believe cultural diversity is a strength and have the attitude that we will meet the needs of any child who enters our school.
- Uphold East Valley School Board Policies, follow administrative procedures, adhere to the Code of Professional Conduct, and enforce school rules.
- Performs such other duties as may be required of the position or assigned by the administration to fulfill the mission and role of the school in the community.
